

Almenni Pension Fund

Almenni is an open pension fund but also serves as the occupational pension fund for architects, doctors, musicians, technicians and travel guides. Almenni Pension Fund is suitable for individuals who have the option of selecting their own pension fund and/or are willing to pay a supplementary premium to increase their spending power when they retire.

Pension rights

In Almenni members can pay both minimum premiums (required by law) and supplementary (voluntary) premiums. Minimum premium (12% of total salaries) is divided between mutual insurance fund (8% of salaries) and defined contribution (4% of salaries) but supplementary premiums are paid into defined contribution plan.

Investments plans

Fund members can choose between six pre-designed portfolios for supplementary premiums.

Members can select portfolio according to their age or the risk they are willing to take. Furthermore members can select the "Lifetime Track" in which the holdings are transferred between the "Life Portfolios" in accordance with each member's age.

Summary of portfolios returns

	Life Portfolio I	Life Portfolio II	Life Portfolio III	Gov. Bond Portfolio	Savings Account Portfolio	Mortgage Portfolio	Mutual Insurance Fund	Total
